About

Built on Expertise, Driven by Excellence!

Manaojas Pte Ltd outsourcing specific supply chain functions like warehousing, transportation, and order fulfillment with value-added services to specialized companies across Singapore. The masterminds behind Manaojas are Mr. Mariappan and his long-time business partner with 21 years of experience. The enterprising duo decided spreading their wings and expanding their repertoire of services would be good for the company. Manaojas has yet to take on any big projects within the industries, but their reputation and experience are growing with satisfied past clients on their score.

Focused on Quality

At ManaOjas, our team brings years of technical knowledge and hands-on experience to every project.

Reliable Execution

We combine forward-thinking strategies with proven processes to deliver seamless.

OUR SERVICES

Warehousing and Distribution

A warehousing and distribution is a large commercial building for storing goods. The goods commonly found in warehouses include machinery spare parts, building materials, finished agricultural goods, furniture, and electronics.

FUNCTIONS

- Streamlining the shipping process
- Supporting the supply chain
- Managing Inventory
- Maintaining Quality Control
- Customer Satisfaction
- Cost Effectiveness

Freight Forwarding

Freight forwarders act as intermediaries between the company that makes the shipment and the final destination for the goods. Although they do not carry out the shipments themselves, they offer different transport modes, such as sea/ocean freight, rail freight, road transport, and air freight.

FUNCTIONS

- Manage the entire shipment process
- Negotiate rates and route
- Provide expertise in international trade
- Offer additional services
- Act as an intermediary
- Handle documentation

Supply Chain Consulting Services

Supply chains are the backbone of modern businesses, but managing them effectively can be challenging. A supply chain consulting firm provides expert guidance to streamline operations, reduce costs, and enhance efficiency.

FUNCTIONS

- Identify Inefficiencies
- Enhance Procurement Strategies
- Improve Supplier Relationships
- Streamline Operations
- Address Complex Issues
- Provide Advisory Services
- Focus on Transformation

Value Added Services

Value-added services (VAS) in logistics are additional services offered by logistics companies beyond basic transportation, handling, and warehousing, enhancing supply chain efficiency and customer satisfaction.

FUNCTIONS

- Kitting & Product Customisation
- Labeling, relabeling, tagging, or retagging
- Packing and Repacking
- Quality Control
- Reverse Logistics
- Customization
- Customer Management
- Cross Docking
- Supply Chain Security
- Vendor Management

M & E Services

M&E services are essential components of a warehouse infrastructure that involve installing and maintaining mechanical, electrical, and construction systems. M&E systems play a crucial role in ensuring the functionality, comfort, and safety of the warehouse or building occupants.

- **Mechanical Systems**
- **Electrical Systems**
- **Construction Systems**
- **Maintenance Services**

FUNCTIONS

- Complies with all company safety regulations
- Performs preventative maintenance
- Handles necessary repairs and maintenance
- Standardize tasks and procedures
- Repairs fixtures and equipment
- Diagnosing mechanical issues and correcting them
- Conduct safety inspections as scheduled
- Follow safety rules
- Installs equipment and appliances
- Cleans the facilities and equipment
- Maintain shipping supplies inventory
- Maintains a list of all contractors/vendors
